1.2	Get server data and push server stats	3
2	About API	5
3	Notes	7

Note: **BladeList.gg** is a website existing since **2019** offering original Discord Bots created by developers whether they are independent or belonging to the largest companies!

API ENDPOINTS

Note: **BASE URL:** <https://api.bladelist.gg>

1.1 Get bot data and push bot stats

Warning: POST and PUT requests are same, POST is recommended.

Note:

URL: /bots/<botID>/

ACCEPTED TYPES: GET, PUT, POST

ACCESS: [**POST:** Superuser, bot owner, admins] [**PUT:** Same as POST] [**GET:** Everyone]

To update servers and shards you should send them in body using POST or PUT request, shards is optional.

```
1 {  
2 "server_count": int,  
3 "shard_count": int,  
4 }
```

1.2 Get server data and push server stats

Note:

URL: /servers/<serverID>/

ACCEPTED TYPES: GET, PUT/POST

ACCESS: [**POST:** Superuser **only**] [**PUT:** Same as POST] [**GET:** Everyone]

To update members online and total members you should send them in body.

```
1 {  
2 "members_online": int,  
3 "member_count": int  
4 }
```
